## Product datasheet for TA327704

## Gastric Mucin (MUC6) Mouse Monoclonal Antibody [Clone ID: MRQ-20]

## **Product data:**

Product Type:	Primary Antibodies
Clone Name:	MRQ-20
Applications:	IHC
<b>Recommend Dilution:</b>	IHC: 1:100 - 1:500
Reactivity:	Human
Host:	Mouse
lsotype:	lgG1
Clonality:	Monoclonal
Formulation:	The antibody is diluted in tris buffered saline, pH 7.3-7.7, with 1% BSA and <1% sodium azide.
Purification:	Affinity purification
Gene Name:	mucin 6, oligomeric mucus/gel-forming
Database Link:	<u>NP_005952 Entrez Gene 4588 Human</u>
Synonyms:	MUC-6
Note:	Mucins are high molecular weight glycoproteins which constitute the major component of the mucus layer that protects the gastric epithelium. The heterogeneous pattern of mucin expression, including the expression of the intestinal mucin MUC2, may provide new insights into the differentiation pathways of gastric carcinoma. Pinto-de-Sousa et al. have shown, in a comprehensive study of gastric carcinomas evaluated for expression of several mucins (MUC1, MUC2, MUC5AC and MUC6), that: (1) mucin expression is associated with tumor type (MUC5AC with diffuse and infiltrative carcinomas and MUC2 with mucinous carcinomas) but not with the clinico-biological behavior of the tumors; and (2) mucin expression is associated with tumor location (MUC5AC with antrum carcinomas and MUC2 with cardia carcinomas), indirectly reflecting differences in tumor differentiation according to tumor location.
Protein Families:	Druggable Genome
